

CITY OF TIGARD, OREGON
TIGARD CITY COUNCIL
RESOLUTION NO. 07-51

A RESOLUTION FINALIZING SANITARY SEWER REIMBURSEMENT DISTRICT NO. 40 (SW ANN STREET) AND AMENDING THE PRELIMINARY CITY ENGINEER'S REPORT CONTAINED IN RESOLUTION NO. 07-12.

WHEREAS, on March 13, 2007, the City Council approved Resolution No. 07-12 to form Sanitary Sewer District No. 40 to construct a sewer in SW Ann Street in accordance with TMC Chapter 13.09; and

WHEREAS, Resolution No. 07-12 included the City Engineer's Report that included an estimated construction and total project cost; and

WHEREAS, construction of the sewer improvements has been completed, final costs have been determined, and the City Engineer's Report has been revised to include the final costs as required by TMC 13.09.105 (1); and

WHEREAS, the property owners within the district have been notified of an informational hearing in accordance with TMC13.09.060 and an informational hearing was conducted in accordance with TMC 13.09.105; and

WHEREAS, the City Council has determined that the proposed revisions to the City Engineer's Report, as recommended by the City Engineer, are appropriate.

NOW, THEREFORE, BE IT RESOLVED by the Tigard City Council that:

SECTION 1: The Final City Engineer's Report titled "Sanitary Sewer Reimbursement District No. 40", attached hereto as Exhibit A, is hereby approved.

SECTION 2: The City Engineer's Report as presented in Resolution No. 07-12 is hereby amended by the attached Final City Engineer's Report (Exhibit A).

SECTION 3: The City Recorder shall cause a copy of this resolution to be filed in the office of the County Recorder and shall mail a copy of this resolution to all affected property owners at their last known address.

SECTION 4: This resolution is effective immediately upon passage.

PASSED:

This 24th day of July 2007.

Mayor - City of Tigard

ATTEST:

City Recorder - City of Tigard

Exhibit A
Final City Engineer's Report
Sanitary Sewer Reimbursement District No. 40
(SW Ann Street)

Background

This project was constructed and funded under the City of Tigard Neighborhood Sewer Extension Program (NSEP). Under the program, the City of Tigard installed public sewers to each lot within the project area. At the time the property owner connects to the sewer, the owner must pay a connection fee, currently \$2,835, and reimburse the City for a fair share of the cost of the public sewer. There is no requirement to connect to the sewer or pay any fee until connection is made. In addition, property owners are responsible for disconnecting their existing septic systems according to Washington County rules and for any other modifications necessary to connect to the public sewer.

Project Area - Zone of Benefit

Serving the nine lots in the following table required the extension of an existing sewer in SW 116th Avenue south to SW Ann Street. All of the lots along SW Ann Street from SW 116th Avenue to SW 121st Avenue are now served.

The project provided sewer service to a total of nine lots within the proposed reimbursement district as shown on Exhibit Map B.

Cost

The final cost for the sanitary sewer construction to provide service to the nine lots is \$141,394.11. Engineering and inspection fees amount to \$19,088.20 (13.5%) as defined in TMC 13.09.040(1). The final total project cost is \$160,482.31. Subject to the Incentive Program, this is the usual expected amount that would be reimbursed to the sanitary sewer fund as properties connect to the sewer and pay their fair share of the total amount. However, the owners expressed concern about the reimbursement fee being higher than the fee for other districts.

The higher fee is the result of the sewer only serving the south side of Ann Street since the lots on the north side are currently served by a sewer along their back lot line. This leaves the lots on the south side with the entire cost of the sewer instead of sharing the cost with the lots on the other side of the street. The owners believe that there is an easement along their back lot line intended for a sewer that could serve their lots as well as the lots immediately south and fronting onto Walnut Street. Although a sewer at this location does not meet City design standards, the owners expected that they would share the cost of constructing this sewer with the lots on the south side of the easement. However, these lots on the south side of the easement were provided with sewer service from sewers installed in Walnut Street in 2001 through Sewer Reimbursement District No. 18. The owners believe that the installation of sewers in Walnut Street eliminated an opportunity for cost sharing of the construction of a sewer and requested relief by reducing the reimbursement fee by one-half. City Council

considered and approved this request following an informational hearing at its March 13, 2007 meeting. The following tables show the final cost to each owner. The cost to each owner is based on spreading one half of the total project cost among the owners instead of the full cost.

In addition to sharing the cost of the public sewer line, each property owner will be required to pay a connection and inspection fee, currently \$2,835, upon connection to the public line. All owners will be responsible for all plumbing costs required for work done on private property.

Reimbursement Rate

All properties in the proposed district are zoned R-4.5 but vary in lot size from about twelve thousand to sixteen thousand square feet as can be seen in the following list of lots. Therefore, it is recommended that the total cost of the project be divided among the properties proportional to the square footage of each property.

Other reimbursement methods include dividing the cost equally among the owners or by the length of frontage of each property. These methods are not recommended because there is no correlation between these methods and the cost of providing service to each lot or the benefit to each lot.

Each property owner's final fair share of the public sewer line is \$0.58129103 per square foot of lot served. Each owner's fair share would be limited to \$6,000, to the extent that it does not exceed \$15,000, for connections completed within three years of City Council approval of the final City Engineer's Report following construction in accordance with Resolution No. 01-46 (attached). In addition to paying for the first \$6,000, owners will remain responsible for paying all costs that exceed \$15,000. Upon request, payment of costs that exceed \$15,000 may be deferred until the lot is developed, as provided by Resolution No. 03-55 (attached).

Annual Fee Adjustment

TMC 13.09.115 states that an annual percentage rate shall be applied to each property owner's fair share of the sewer line costs on the anniversary date of the reimbursement agreement. The Finance Director has set the annual interest rate at 6.05% as stated in City of Tigard Resolution No. 98-22.

Recommendation

It is recommended that a reimbursement district be finalized with an annual fee increase as indicated above and that the reimbursement district continue for fifteen years as provided in Tigard Municipal Code (TMC) 13.09.110(5). Fifteen years after the formation of the reimbursement district, properties connecting to the sewer would no longer be required to pay the reimbursement fee.

			138040	\$160,482	\$80,241	\$54,000	\$25,241

The "FULL REIMBURSEMENT FEE" column shows the reimbursement fee for each lot if the full cost of the project was imposed on the owners.

The "REDUCED REIMBURSEMENT FEE" column shows the reduced reimbursement fee for each lot. There are no requirements to connect to the sewer or pay any fees until the owner decides to connect to the sewer.

In accordance with Resolution No. 01-46, each property owner will be required to pay the first \$6,000 of the final reimbursement fee for connections completed within the first three years of City Council's approval of the final City Engineer's Report following construction. The "TO BE PAID BY CITY IF CONNECTED WITHIN 3 YEARS" column shows that portion of the reimbursement fee that the owner will not be required to pay if they connect to the sewer during this three year period which is that amount of the reimbursement fee between \$6,000 and \$15,000.

In addition to the reimbursement fee, the owners will also be required to pay a connection fee, currently \$2,835, at the time of connection to the sewer. Property owners are also responsible for disconnecting their existing septic system according to Washington County rules and for any other modifications necessary to connect to the public sewer.
